HUAWEI

Demand for Industry Certified Professionals

Industry

gap

Academia

- Rapidly developing technologies
- Shortage of qualified multi-skilled ICT engineers & experts
- Lack of vendor specific knowledge & hands-on experience

- Educational curriculum – no vendor specific industry knowledge or training
- Need to provide skills required by industry
- Need to provide employable skills and increase job opportunities

HUAWEI

Huawei ICT Academy Knowledge Transfer Process

HUAWEI

- Comprehensive learning pathways
- Train the trainer program
- Huawei ICT Academy online platform

+

Academia

- Web based learning resources
- Simulation tools
- Qualified teachers - industry certified

Students

- Industry standard ICT training & certification
- Practical hands on experience
- Career guidance

**HUAWEI**

HAINA Academy Benefits

Benefit to Academies

- Links with Industry and knowledge sharing

- Access to latest technologies and Huawei e-learning resources

- Free access to industry standard simulation tools

- Extensive Industry standard training and certification for lecturers

- Partnership with Huawei

- Support provided directly from Huawei

- Academia able to provide a unique curriculum for students

- Making students ready for employment

Benefit to Students

- Links with Industry and knowledge sharing – real world knowledge

- Access to latest technologies and Huawei e-learning resources

- Access to industry standard simulation tools

- Industry standard ICT training & certification for students

- Master classes, seminars, industry trips and ICT competitions

- Work placement opportunities

- Training & certification - increased job opportunities for students

- Students receive special discounts for Huawei certification exam vouchers

HUAWEI

Huawei ICT Academy Courses

Pathway	Course
Enterprise network	Network Technology Foundation
	R&S
	Advanced Network Technology
	WLAN
	Security
	Data Center Management
	IoT Application Technology
	SDN Technology Foundation
Information Technology	AI
	Storage
	Cloud
	Big Data
IT Management	ICT Introduction
	Workplace Specifications
	ICT Project Management

Resources

- Student Books
- Lab guides
- E-Learning resources
- Online tests
- Simulation tools

Huawei ICT Academy Online Platform

Supporting teaching & learning

Students:

- 24 x 7 access to learning materials
- Free simulation tools
- Mobile Learning - study anytime, anywhere

Study

Teach

Manage

Teachers:

- Teaching resources
- Customizable exams + Grading book
- Automated exam marking

HAINAs

- Managing user access
- Sharing good practice
- Online student community

HUAWEI

HAINA – BENEFITS

✓ US$1000 marketing activity fund or HCIA/HCIP/HCIE exam vouchers of the same value.

✓ Free training and certification opportunities for two lecturers from each technical direction (excluding travel expenses).

✓ If 1-20 trainees complete the class program in one year, the academy will be awarded a US$1000 marketing activity fund and 20 HCIA exam vouchers.

✓ If 21-50 trainees are certified in one year, the academy will be awarded a US$1500 marketing activity fund and 50 HCIA exam vouchers.

✓ If more than 50 trainees are certified in one year, the academy will be awarded a US$3000 marketing activity fund and 100 HCIA exam vouchers.

✓ The academy will be awarded the same quantity of HCIA exam vouchers as the number of students in the first class.

HAINA – BENEFITS

**Free HCIA certification Exam Voucher Program**

Huawei is currently running a special promotion where you will be able to apply for a free HCIA Certification Exam Voucher if you meet the ALL following criteria:

- ✓ 10 or more hours of online learning
- ✓ 80+ points for the online mock test

This promotion has been designed to help young people achieve industry standard qualifications that are globally recognized by the ICT industry and provide employable skills to help young people kick-start their career.

Huawei Certification

The Only All-range Technical Certification in the Industry

Huawei launches its Certification Solution, based on years of experience in developing ICT talents and deep insight into industry developments.

Huawei follows the "platform + ecosystem" development strategy. Working with partners, Huawei provides innovative, differentiated, and advanced ICT infrastructure to build an open, resilient, flexible, and secure platform, thereby helping customers accelerate digital transformation and achieve business success.

Huawei has set up a complete certification system consisting of three categories: ICT infrastructure certification, ICT developer certification, and ICT vertical certification.

HCIE

HCIP

HCIA

HUAWEI
